Thoughtfully designed in terms of scale, layout and finishes, the townhouses at Academy are practical and flexible, while remaining beautifully serene. With a balance of private and shared spaces to accommodate households of all ages, these are homes to grow with, not outgrow.

On the ground level, residents enter through a landscaped front courtyard, before being welcomed into the full-size living, dining and kitchen space. With a full width island, 900mm oven and induction cooktop, large pantry and plentiful storage, the highly functional kitchen has been designed with households of today in mind.
